

## REMARKS

Claims 1-26 are currently pending in this application. In this Office action response, claim 16 has been amended. No claims have been canceled, and no new claims have been added. Claims 1-16 and 17-26 have not been amended.

In reviewing the published application, Applicant noted a number of minor corrections to the Specification, Drawings, and Claims which needed to be corrected.

First, claim 16 had an extra word in the first line of the claim. Claim 16 has been amended to delete the word.

Second, paragraphs 0031, 0035, 0037, and 0039 have been amended. Paragraph 0031 contained an error in line 14 of the published application. As shown in Fig. 4 of the drawings, screw 62 extends "in front of", not "behind" the rim of the wheel mounted to the risers. In paragraph 0035, a parenthetical expression has been added, in the next to last line of the paragraph, to better explain how the stop is engaged by the lever. In the first line of paragraph 0037, reference to Fig. 11 has been added to aid in understanding how Applicant's apparatus works. Finally, in paragraph 0039, an extraneous word has been deleted from the first sentence of the paragraph. In each instance, no new matter has been added.

Finally, Figs. 14A and 14B were found to have inaccuracies in identifying parts of Applicant's apparatus with lead lines from reference numerals. The attached redline markup of these figures corrects these errors, and a formal drawing with appropriate corrections will be submitted when a Notice of Allowance is received.

Appl. No. 10/635,090  
Amdt. dated May 25, 2004

Dated: 5/25/04

Respectfully submitted.

A handwritten signature in black ink, appearing to read "J. Joseph Muller". The signature is written in a cursive style with a large, stylized "J" and "M".
